Career Objective

Bachelor of Engineering student in Information Technology, looking to begin a professional journey in the tech industry. Aiming to contribute to meaningful projects while continuously learning and developing both technical and professional skills in a collaborative environment.

Education

Bharati Vidyapeeth College of Engineering, Navi Mumbai <i>Bachelor of Engineering in Information Technology (CGPA: 8.06)</i>	Expected Graduation June 2027
Amarnath College, Chembur <i>Higher Secondary Education</i>	June 2021 – March 2023
Marthoma School Of Maharashtra, chembur <i>Secondary School Certificate</i>	2021

Experience

InAmigos Foundation <i>Data Analytics</i>	June 2026 – June 2026
- Cleaned, transformed, and analyzed datasets using Microsoft Excel, SQL, and Python (Pandas) to ensure data accuracy and consistency. - Developed interactive Power BI dashboards and data visualizations to identify trends, monitor KPIs, and communicate insights effectively. - Performed Exploratory Data Analysis (EDA) and prepared analytical reports that supported data-driven decision-making.	

Projects

Open Source Contribution - 2D Space Dodge Arcade Game. Link	June 2026
- Developed an interactive 2D Space Dodge browser game using HTML, CSS, and JavaScript. - Implemented core game play mechanics, including keyboard controls, obstacle generation, collision detection, real-time score tracking, and game-over logic. - Designed a responsive and visually engaging user interface with smooth animations to enhance the overall gaming experience. - Applied JavaScript DOM manipulation, event handling, and efficient game logic to deliver fast and seamless gameplay.	
AiSense: AI Image Detection System	April 2026
- Developed a web application to detect whether an image is AI-generated or a real photograph. - Built and trained a CNN model using PyTorch and used image analysis techniques for better prediction accuracy. - Designed a responsive user interface using React, Vite, HTML, CSS, and JavaScript with drag-and-drop image upload. - Integrated a FastAPI backend to process images and display prediction results with confidence scores.	

Certifications

Deloitte Australia Analytics Job Simulation – Forge	May 2025
- Completed a virtual job simulation focused on data analytics and forensic technology. - Developed an interactive business dashboard using Tableau for data visualization. - Analyzed and classified data using Microsoft Excel to derive business insights and support decision-making.	
Full Stack Web Development – Simplilearn	May 2026
- Completed a comprehensive Full Stack Web Development certification program. - Worked with HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, Git, and GitHub. - Built responsive full-stack web applications by applying frontend and backend development concepts.	

Information Technology Student Association (ITSA)

Sep 2025 – Apr 2026

Internship Coordinator — Bharati Vidyapeeth College of Engineering

- * Coordinated internship programs by facilitating communication between students, mentors, and organizers.
- * Managed internship schedules, tracked participant progress, and ensured timely completion of assigned activities.
- * Collaborated with team members to organize events and strengthen leadership, communication, and organizational skills.
